Coex
Customized Sizes
Clear and Black

Tilt Trucks

Light Duty
Standard Duty
Heavy Duty
Up to 3cu yards

Wall Washers/Trowels

Trowels/Wall Washers are perfect for horizontal or vertical surface cleaning. With extendable handles, high reach areas can also be cleaned. Color coded to eliminate contamination.

Wet Pocket Pads

18" Wet Pads clean surfaces both flat and uneven. Spun loop fibers get deep down into grout lines and uneven surfaces. Colored Pads, Frames, and Handles available.

Velcro Wet Pads

18" Velcro Wet Pads clean hard surfaces. Easily attach pads to velcro frame. Colored Pads, Frames, and Handles available.

High/Flexible Dusting

Flexible Dusting wands are a great addition to any microfiber system. Clean high reach areas and hard to reach spaces by flexing the wand. Can be used with telescopic handles.

Tube Mops

Get a better clean with Microfiber tube mops. Tube mops have microfibers to trap dirt and keep it off your floors. Available in blue, green, white, and red – Small, Medium and Large Mops.

16x16 Microfiber Cloth

Microfiber cleaning cloths remove 98% of dirt and germs from surfaces when laundered properly. Available in a variety of colors to organize your facility and eliminate cross contamination.

Washing Machine

Economical portable washing machine is perfect to keep your microfiber clean. Never mix any other fabrics with your microfiber. Only use Microfiber Detergent.

Microfiber Detergent

Microfiber, though rugged, is very delicate when it comes to washing. Using the correct detergent is extremely important to keeping your microfiber in top condition for cleaning.

Microfiber Laundering Tips

1. NEVER use fabric softener
2. ALWAYS use an approved Microfiber washing detergent only. Use to mfg specifications. Hang to dry or use right
3. NEVER heat dry your microfiber. This will cause the fiber fingers used to grab the dirt/germs to shrivel up and no longer be effective in cleaning.
4. NEVER mix any other fabric when washing your microfiber. Fabric fibers will clog the microfiber fingers, leaving your microfiber ineffective.

Restroom

Hand Soaps
