Make Your Facility Beautiful!

Certain hard floors, such as Terrazzo and Marble, can be Diamond Honed, eliminating the need for floor finishes. Say goodbye to stripping floors, dealing with fumes, or spending countless hours on labor each year. Simply use the final diamond pad as your regular cleaning pad and enjoy a brilliant shine all year long. For more information, please ask your sales representative for a demonstration.

**BEFORE****AFTER**

Diamond Honing How It Works

Based on the condition of your floor, we utilize diamond-impregnated disks & pads ranging from 200-8,000 grit to cut & polish your floor to perfection. The images above showcase the remarkable transformation of our process. This procedure can be completed in stages or all at once, depending on your preference.

Your Facility Transformation Begins Here

Thank you for exploring our pad offering.
